

Dear Ladies and Gentlemen,

We are constantly expanding our product range and would like to inform you that coolant tubes for PSC tools - compatible to Sandvik CAPTO® - are now also available.

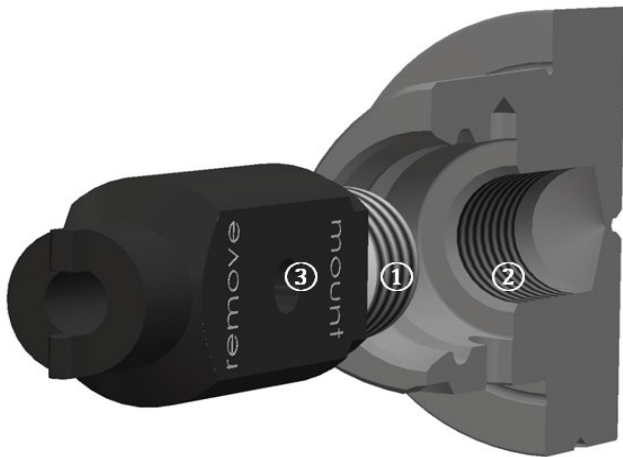

SWISSTOOLS coolant tubes are available for the following sizes:

PSC 40 / C4

PSC 50 / C5

PSC 63 / C6

Please note that a special installation key is required for assembly or disassembly, which can be ordered separately.

In addition, installation instructions are included that describe how to secure the coolant tube with Loctite® 542.
